

2024
Workshop on
Fixed Field Alternating Gradient Accelerators

FFA'24

School: 1-2 September, 2024 @ Kyushu Univ.
Workshop: 3-6 September, 2024 @ Osaka Univ.
JAPAN

Key Topics:

Status reports of existing FFA accelerators
Plans for future updates
Beam dynamics studies
Hardware developments
Applications

Special Sessions:

New PRISM-FFA project for muon physics
Heavy ion acceleration in FFAs
ERIT-FFAs for new particle/energy generation
FFAs for Muon collider projects
Outcomes from KURNS-FFAs

FFA school
Tours of the RCNP cyclotron facility

Chair person: Akira Sato/Nobuo Ikeda
Contact: ffa24@epp.phys.sci.osaka-u.ac.jp
